UNOFFICIAL TELEPHONE SERVICE

Unofficial offices being served with commercial telephone service will not be listed in this directory. Unofficial telephone numbers should be listed with the Washington Area Telephone Company information.

USE OF OFFICIAL TELEPHONES FOR PERSONAL BUSINESS

Telephones are not to be used by employees for personal messages except in case of emergency. Use pay stations located in convenient places in all buildings. Chief of Bureaus are expected to cooperate in securing strict observance of this instruction and each person having a telephone on his or her desk is responsible for its proper use.

ALL NUMBER CALLING EXCHANGES FOR THE DEPARTMENT OF DEFENSE

Be sure you have the correct number in mind. Consult the directory. Listen for dial tone and then dial the number.

69-2 — 69-3 — 69-4 — 69-5 — 69-7

When calling from one of the above exchanges to another one of the above exchanges dial only the last 5 digits of the number.

When calling from one of the above exchanges to an entirely different exchange in the Metropolitan Area not listed above, dial 9 and listen for dial tone*, then dial all 7 digits.

*(This dial tone will be continuous and will sound the same as the original dial tone Please continue dialing).

INTERAGENCY CALLS

See "Other Government Agencies" Section for Agencies with Centrex.

1. To place a call to a government agency which has Centrex, dial "9" plus the 7 digit direct-in-dialing station number.
   If the desired direct-in-dialing station number is not known, refer to the "Other Government Agencies" section of this directory for the Centrex information number or refer to the Telephone Company directory for the listed number of the desired Agency.
2. Calls to other government agencies *with* Centrex are made at no extra cost.
3. Calls to other government agencies *without* Centrex can not be made from restricted telephones.

CALLS TO OUTSIDE LOCAL NUMBERS FROM UNRESTRICTED TELEPHONES

Dial 9. Dial the desired number. Employees are reminded that telephones are to be used for Official business only. A charge is applied to all outside calls, except Government Centrex.

AUTOMATIC VOICE NETWORK (AUTOVON)

The Automatic Voice Network (AUTOVON is the basic General Purpose switched voice network of the Defense Communications System. Autovon serves most major installations in CONUS and limited overseas areas. To avoid abuse of the Network and derive maximum efficiency, users must be familiar with the system and cooperate fully You can assist by following these guidelines:

Consult the AUTOVON listings in this directory or dial "0" for up-to-date information.

Send a message instead. Use the AUTOVON only when your communications requires a time sensitive reply.

Restricted lines cannot be used to place AUTOVON calls.

Don't use AUTOVON for unofficial business. Unless the communication is official and essential and would stand the scrutiny afforded a commercial toll call, the AUTOVON should not be used.

Keep the call short. Policy on AUTOVON use states that calls should be no more than approximately 5 minutes in duration. Outline your communication prior to making a call and then limit it to 5 minutes. If you are seeking information which is not readily available, ask the party on the other end to call back.

Avoid system saturation. Most AUTOVON calls from the DC area are attempted in the middle of the morning or afternoon. When this happens, there simply are not enough circuits to handle every call. Attempt to place calls throughout the day. Many calls are completed faster with less preemption in the early morning or late afternoon when there is less competition for circuits.

AUTOVON access (CONUS only) Dial "8" listen for dial tone, then AUTOVON number.

AUTOVON access to overseas is not available through the DTS-W system. Overseas calls must be placed through the appropriate military switchboard serving your activity or by commercial means.

LONG DISTANCE TELEPHONE CALLS

Facilities are maintained within the Department of Defense for the most economical and efficient placing of long distance calls. To keep costs at a minimum, military departments must insure that only official calls of short duration be made over the Department of Defense facilities.

1. Applies to calls from *Unrestricted* telephone numbers only.
2. To place an official long distance call, dial 9 plus the area code and telephione number desired.
3. If a "circuits busy" recording is encountered, hang up and try your call later.
4. If the call is of such urgency that delays cannot be tolerated, dial the Defense operator ("0") and tell her of the circuit busy condition and request her assistance.
5. Agencies will be provided a monthly statement of long distance usage which will include calling number, date, time connected, length of call (in minutes), cost of the call, city, state, and telephone number called.
6. The procedures do not apply to 238 (Cheltenham), 437 (Reston), 692-4xxx (Tower Webb), or 756-5xxx (Melpar) exchanges.

Refer to page 4 for area code numbers most frequently called.

LOCAL CONFERENCE CALLS ARE NOW AVAILABLE

A local conference call can consist of up to five local area numbers.

To place a local conference call, listen for the dial tone, dial operator, give the details of the call.

DOD OFFICIAL TELEPHONE CREDIT CARD USERS

Telephone credit cards are intended for official use when the authorized credit card holder is away from his permanent duty station and has a requirement to place an official call.

Credit cards will not be used by DOD officials to make calls from his permanent duty station.

TRANSFERRING CALLS

IMPORTANT: To Transfer a call, press switch hook firmly ONCE.

You may transfer any incoming long distance or direct in-dialing call by signalling the operator. This transfer cannot be made if more than one telephone is open on the line being used. Interoffice dialed calls cannot be transferred. Inter agency dialed calls cannot be transferred.

MONITORING OF TELEPHONE CALLS

There will be no regular monitoring of telephone calls. In exceptional cases, where monitoring of a specific telephone call is requested by one of the parties, the other party or parties to the conversation must be made aware that the call is being monitored. Where mechanical recorders are used they must be equipped with a distinct warning tone (beep sound).

Personnel must be informed that no calls will be monitored without explicit affirmative instructions for each specific call.

REQUISITIONING TELEPHONE SERVICE AND CHANGES THEREIN

In order to facilitate and expedite telephone installations, moves and disconnections a contact should be made with the agency coordinator. This office in turn will contact the Telephone Company Service Group. A survey will be made by a Service Engineer and DD Form No. 410 "Requisition for Telephone Service" will be prepared. Also, DD Form No.218 "Telephone Directory Listings" must be completed and attached to DD 410 to insure accuracy of information and directory records. These forms are then forwarded through the proper channels to the Defense Telephone Service—Washington, Room 1A263 Pentagon Building.

Alphabetical and Organizational listings must be submitted on Form DD No 218 (alphabetical) or Form DD No 218-1 (organizational) on a daily basis. There is no definite deadline for going to press.

TELEPHONE DIRECTORIES

Requests for telephone directories by employees must be made through the normal supply channels of your bureau.

MINIMIZE

MINIMIZE is a procedure used during periods of crisis or other abnormal periods to reduce the volume of record and long distance telephone traffic ordinarily transmitted electrically.

MINIMIZE applies to ALL users of DOD communications systems, including originators of card and tape traffic.

Procedures. When MINIMIZE is imposed, users of DOD electrical communications facilities must determine that:

1. The information to be forwarded is required to avoid a seriously detrimental impact on mission accomplishment or safety of life.

2. Electrical transmission is the only way to get the information to the addressee in sufficient time to accomplish its purpose.

Alternate Means of Communications. The US mail, the US Armed Forces Courier Service, or an individual as a courier or messenger should be used instead of using electrical means when MINIMIZE is imposed.

Authority to Impose and Cancel MINIMIZE. Commanders are authorized to impose MINIMIZE within their command or area of command responsibility unless specifically denied by appropriate higher authority. The Joint Chiefs of Staff impose it worldwide as well as in any specific area. The Joint Chiefs of Staff or the commander concerned, as appropriate, will cancel MINIMIZE when no longer required.

Authority. Allied Communications Publication (ACP) 121 US Supplement-1

NATIONAL COMMUNICATIONS SYSTEM VOICE PRECEDENCE SYSTEM

GENERAL INSTRUCTIONS

1. The National Communications System (NCS) Voice Precedence System which became effective 14 February 1970, is directed for use by all authorized users of the voice communications facilities of the Department of Defense. Since the effectiveness of the system depends upon cooperation on the part of persons authorized to employ it, users must be familiar with the purpose to be served by each precedence category and the types of calls which may be assigned the respective precedences. Each authorized user should consider whether a call requires special precedence and exercise care not to request or utilize one higher than the circumstances require.

2. The NCS Voice Precedence System does not make specific provisions for the conduct of test and exercise calls. Those activities or individuals authorized or required to conduct such tests and exercises will employ precedences consistent with the nature of the test or exercise, and upon contacting the called party will identify the call as a FLASH test call, IMMEDIATE test call, or PRIORITY test call.

3. Calls of a given precedence will not normally pre-empt calls of an equal precedence. However, calls originated by the President of the United States, Secretary of Defense and Joint Chiefs of Staff can pre-empt FLASH calls in progress by application of their FLASH OVERRIDE capability. In addition, commanders of unified and specified commands when declaring either Defense Condition One or Defense Emergency and CINCNORAD when declaring either Defense Condition One or Air Defense Emergency may also pre-empt FLASH calls in progress by application of the FLASH OVERRIDE capability.

4. The precedence indicators listed on the following page are directed for joint use and specify, by military precedence designator, the relative order in which telephone calls should be handled based on the importance (content) of the call.

NATIONAL COMMUNICATIONS SYSTEM VOICE PRECEDENCE SYSTEM

MILITARY PRECEDENCE DESIGNATOR	TRANSMISSION PRE-EMPTION	APPLICATION
FLASH	Has precedence over any other telephonic call of lower precedence. Pre-empts lower precedence calls. May be pre-empted by the application of the FLASH OVERRIDE capability available to: (1) The President of the United States, Secretary of Defense and Joint Chiefs of Staff; (2) Commanders of unified and specified commands when declaring either Defense Condition One or Defense Emergency; (3) CINCNORAD when declaring either Defense Condition One or Air Defense Emergency and other national authorities as the President may authorize.	Flash precedence is reserved generally for telephone calls pertaining to: (1) Command and control of military forces essential to defense and retaliation; (2) Critical intelligence essential to national survival; (3) Conduct of diplomatic negotiations critical to the arresting or limiting of hostilities; (4) Dissemination of critical civil alert information essential to national survival; (5) Continuity of Federal Government functions essential to national survival; (6) Fulfillment of critical United States internal security functions essential to national survival; (7) Catastrophic events of national or international significance.
IMMEDIATE	Has precedence over any other telephonic call of lower precedence. Pre-empts lower precedence calls.	Immediate precedence is reserved generally for telephone calls pertaining to: (1) Situations which gravely affect the security of national and allied forces; (2) Reconstitution of forces in a post-attack period; (3) Intelligence essential to national security; (4) Conduct of diplomatic negotiations to reduce or limit the threat of war; (5) Implementation of Federal Government actions essential to national survival; (6) Situations which gravely affect the internal security of the United States; (7) Civil Defense actions concerning direction of our population and their survival; (8) Disasters or events of extensive seriousness having an immediate and detrimental effect on the welfare of the population; (9) Vital information having an immediate effect on aircraft, spacecraft, or missile operations.
PRIORITY	Has precedence over any other telephonic call of lower precedence. Pre-empts lower precedence calls.	Priority precedence is reserved generally for telephone calls requiring expeditious action by called parties and/or furnishing essential information for the conduct of government operations.
ROUTINE	Has no precedence over any other call and is handled sequentially as placed by the calling party. No pre-empt.	Routine precedence designation applies to those official government communications which require rapid transmission by telephonic means but do not require preferential handling.
